Both students fully engaged with the Cyber team and the specialists we lined up - our time investment was of value to all involved.

**Dementia Care can be a very emotionally and physically exhausting environment - both students showed maturity & understanding beyond their years.**

Louisa has been exceptional all week and really helped move a number of projects at Park Run Global forward.

Josh produced work for me exactly as requested - I am likely to pinch some of his ideas for my new website!

**I researched and developed a podcast script, set up an interview and recorded to a deadline.**

I was taught how to tie a falconer's knot and persevered until I could do it without difficulty.

**I created an interior room scheme, making mood boards and ordering fabric samples**

I assisted in the design and rigging of lights to one of the hemp bars in the Opera House and calculated all the distances for placement.

**I researched, designed and successfully delivered an updated company logo, following a detailed brief from a glazing firm.**

I helped manufacture panels for the London Underground and interpreted technical diagrams to wire up several terminals.

**I was asked to go out and shoot images of flowers and some of these were then selected for commercial use by the company.**
