Spotlight on Virtual Work Experience Opportunities

As well as enabling students to expand their careers ideas or subject knowledge, virtual work experience can provide critical insights into the world of work and help prepare students for the demands and expectations of the working world.

We would encourage you to take advantage of some of the amazing virtual work-related opportunities available during May half-term and throughout June, July and August. Companies are keen to open the eyes of young people to the **fast moving workplace and new fascinating job roles** awaiting them and have invested considerable resources in putting together well thought out and bespoke programmes. Many placements are one day only and are often **hosted by national or global companies, normally inaccessible to young people**.

A selection of the latest placements are below—but these are only a fraction of what is on offer. The full 15 page list of current opportunities can be found on the [Careers / Work Experience website page](#) and is updated EVERY week. For any questions, advice or further help, please contact Mrs Farrar m.farrar@staidans.co.uk

To apply for any of the S4S/Next Generation opportunities below, first create an account here <https://www.s4snextgen.org/> before clicking on the links.
