## **Teacher Assessed Grades 2021**

In line with the JCQ [Guidance](#) for awarding Teacher Assessed Grades, teachers will make use of some/all of the following evidence:

*Student work produced in response to assessment materials provided by the awarding organisation, including groups of questions, past papers or similar materials such as practice or sample papers.*

- *Non-exam assessment (NEA) work (often referred to as coursework), even if this has not been fully completed.*
- *Student work produced in centre-devised tasks that reflect the specification, that follow the same format as awarding organisation materials and have been marked in a way that reflects awarding organisation mark schemes. This can include:*
  - » *substantial class or homework (including work that took place during remote learning);*
  - » *internal tests taken by students; and/or*
  - » *mock exams taken over the course of study.*
- *Records of a student's capability and performance over the course of study in performance-based subjects such as music, drama and PE.*
- *Records of each student's standard of work over the course of study*

The specific pieces of assessed work which will be considered by teachers when reaching a holistic judgement on grades for each course are indicated below. There is no particular hierarchy to these pieces of evidence.

If there are any exceptional circumstances which you believe may have affected your performance in any of these assessments and you have not already communicated this in writing, please email [t.mahoney@staidans.co.uk](mailto:t.mahoney@staidans.co.uk) before 12<sup>th</sup> May 2021.
