Navigation

The screenshot shows the UCAS application homepage for a 2021 Undergraduate application. The page features a navigation menu at the top with links for Further education, Undergraduate, Postgraduate, Alternatives, and Careers. The user's name, Freddie, is displayed in the top right corner. The main content area is titled 'UCAS APPLICATION' and includes the user's Personal ID number, 1444722400. Below this, there is a section for 'Application status' and 'Centre information'. The 'Application status' section displays four progress indicators: CHOICES (0/5), PROFILE (0%), PERSONAL STATEMENT (NOT STARTED), and a 'Submit >' button (0%). The 'Centre information' section shows the application is linked to UCAS Training London, with the group 'Training Group 1'. The second screenshot shows the same page after some progress has been made: CHOICES is now 2/5, PROFILE is 44%, PERSONAL STATEMENT is IN PROGRESS, and the 'Submit >' button is now 36% complete.

Make sure your personal statement is your own work

We'll carry out checks to verify your personal statement is your own work.

Provided it is your own work, you can use your personal statement from your application last year. If it appears to have been copied from another source, we'll inform the universities and colleges to which you have applied. They will then take the action they consider appropriate. We'll also contact you by email to tell you this has happened.

Edit

1 From new architectural and building techniques to modes of transport, how we live is
2 increasingly impacted by initiatives to preserve environmental resources. The area of
3 environmental science which is of particular interest to me is our increasing dependence on
4 fossil fuels, along with the growing demand for green energy.
5
6 After reading Heinburg's "The Party's Over" it became apparent to me that as the world's oil
7 resources run low, there is an ever increasing need and urgency for countries to protect,
8 regulate and utilise correctly the raw materials that they possess; this often leads to
9 innovative new discovery and invention, as epitomised by a recent New Scientist article
10 discussing the possibility of electric roads to power cars and reduce carbon emissions. My
11 enthusiasm for this topic inspired me to examine how energy can be utilised from various forms
12 of waste, for my Extended Project Qualification. Reading and analysing research papers and
13 books and subsequently presenting data in a persuasive manner gave me a taste of independent
14 study, as well as time management skills to preserve my other
15 commitments.....
