

# Careers Department Notices

w/c: 7th November

Green Careers week, provides an insight into and exploration of the current and future careers which will help the planet move towards net zero with reduced impact on the environment. It also provides an opportunity to reflect on the states of our towns and cities, the basic right of all to adequate shelter, and the relationship between climate change, urbanization and wider humanitarian issues.

Recent research states SIX key areas of growing Green Careers:

Green Design

Green Home Architect/Builder

Urban Agriculture

Environmental Scientist

Sustainability Consultant

Wave Power Engineer
