

Volunteering Opportunities

There are hundreds of organisations in the Harrogate area which involve volunteers in their work. Different organisations have individual volunteer policies and so some may not be able to accept volunteers who are under 16 or under 18. For example this may be due to issues such as insurance or safeguarding of vulnerable individuals. However, in the following pages, there is a listing of opportunities in the Harrogate District which welcome young people and students as volunteers.

The Value of Volunteering

- Develop your skills, confidence, understanding and aspirations!
- Gain valuable experience of working with a range of people, whom you otherwise may never have met!
- Become involved in making a positive difference in your local community
- When added to your CV the experience could make the difference when you apply for your dream job!
- Access interesting training opportunities and receive your expenses
- Make new friends and have fun!

What to consider before volunteering?

Organisations are looking for volunteers who are reliable and can make and honour a commitment. So before you start looking for roles it is worth considering:

- Whether you would like a short term volunteer role (e.g. helping at an event or volunteering each week for a month) or a long term volunteer role (e.g. committing to a couple of hours each week for a year).
- How much time you would like to give and what days of the week you are available.

It is also worth thinking about what you would like to get out of volunteering. Many people volunteer to gain experience or improve their existing skills. If you have a skill or an interest that you can offer to an organisation let them know about it, for example you may be studying photography, have an interest in music, a passion for working with young people or want to become a vet.

What next?

Once you have found a role which interests you it is a good idea to get in touch with the organisation directly to find out more about the role and when volunteers are needed. It is worth noting that most Volunteer Managers are part time and so it may take them a while to get back to you via phone or email.

Many organisations will ask you to complete an application form. Application forms may ask for your contact details and some basic information about skills or experiences which might be useful. You will also be asked to provide a couple of references.

Most organisations will ask you to come in for an informal chat before you start volunteering. This is not a formal interview and you are under no obligation to volunteer after meeting with an organisation if you decide it is not for you.

Some roles may require you to have a Disclosure and Barring Service (DBS) Check, for example if you are working with vulnerable people or children. This can take a few weeks. If a role requires a DBS check it is advisable to apply a month in advance of when you want to start volunteering.
