

## Year 11 support for students:

Year 11 should always feel that they can access help from their teachers; a quick conversation at the start/end of lessons is often enough to resolve outstanding questions; some teachers will suggest meeting outside class if they think it will help. Further help may be sourced from revision guides, textbooks and on-line support as well as the Team 'Year 11 Progress and Exams' which has been set up specifically to support students with their exam preparation. Some departments will also run a regular, scheduled drop in or revision classes during lunch or after school. These may have a specific focus or be led by students' questions. Those currently in existence are:

| SUBJECT                            | DATE                               | LOCATION       | DAY                           | TIME            | TYPE OF SESSION                |
