

Year 12 Work Experience

Year 12 students may request up to 5 days, UK based, In-Person and/or Virtual work experience – dates MUST avoid internal/external assessment and subject related trips. Application forms for both In Person and Virtual work experience are available from the Sixth Form Office and are subject to the agreement of Parents, Senior Tutor/Head of Year and Subject Teachers.

Please note:

- [In Person Work Experience Process](#) We require at least **TWO weeks notice** of In Person placements in order to carry out safeguarding checks.
- [Virtual Work Experience Process](#) We have data sharing agreements with most of the large virtual work experience host organisations, however please give as much notice as possible of any virtual placements secured, in case safeguarding checks are required.
- Failure to comply may mean we are unable to authorise the student absence. Full details can be found in our [Work Experience Policy](#).

Please contact the Careers Department for help or further details.

Year 13 Intended Destinations

If you are not intending to apply for either an undergraduate course or a foundation diploma in Art and Design, please can you call up to careers to update us on your intended plans for after Year 13 and/or book an individual careers appointment to discuss your options.

Careers Appointments

Please note that from the week commencing 13 November we will be able to meet with students for individual appointments in both the Careers Department meeting rooms in Bede at St. Aidan's and the Careers Department meeting room in the T2 area at St John Fisher. You will be advised of the location of your meeting at the time of booking.

Year 12 Careers Tutorials

The careers programme for Year 12 students will start in earnest next month, with our first tutorials exploring post-18 options and research to support this. If you would also like to book an individual careers appointment to discuss your ideas in more detail, you can email us with details of when you are available at careersstaff@staidans.co.uk.

The next scheduled
Careers Department
talk is.....

Inclusive Opportunities in Ground and Geo- Engineering

a representative from

coffey

A TETRA TECH COMPANY

will be in the Careers Department
at lunchtime on

Thurs 16th Nov 12.45pm

You are welcome to bring sandwiches

Have you ever wondered how everything around you remains stable and secure? Clean water, safe tunnels, towering skyscrapers, and reliable roads are all made possible by civil engineering, particularly ground engineering.

Ground engineering, a subset of civil engineering, focuses on understanding the properties of soil and rock and how they interact with structures and foundations. It's the key to designing, building, and maintaining infrastructure projects like buildings, bridges, dams, roads, and tunnels.

Ground engineering stands as a pivotal component within the realm of civil engineering, playing a crucial role in shaping a more promising and sustainable world.
