SAVE THE DATE

CAREERS EVENING TUESDAY 9th APRIL

Plans are well under way for our annual Careers Evening which will take place in Constance Green Hall on Tuesday 9th April. Over 50 exhibitors have now confirmed their attendance to highlight opportunities in further and higher education, employment, apprenticeships, volunteering and for a planning a gap year. Multiple subjects and industry sectors will be represented, by organisations including:

Further information on reserving your place for what should be a very busy and informative evening will follow next half term.

**HAVE FUN &
STAY SAFE
THIS HALF TERM**

Extra Curricular and Virtual Opportunities

NB: if you would like to attend an event during lesson time, you must submit a Formal Request for Work Experience form.

- [Apprenticeships Unlocked](#)

Considering applying for apprenticeships? Take this short course with the Department of Education to see if this pathway aligns with your post-18 aspirations.

- **Year 12 [ARUP Design Programme](#), 1-5 July, Deadline for applications - Feb 29**

Arup Design is a collective of 18,000 designers, advisors and experts dedicated to sustainable development and working across 140 countries. Applications are now open for their creative, engaging and inspiring work experience week giving students insight into the day-to-day life of engineers, designers and consultants working within the built and natural environment.

- [Yorkshire Medical Schools Summer School](#): Applications close 18 Feb

A collaboration between Leeds, Hull/York and Sheffield Medical Schools, The Royal College of Surgeons, and the Medical Schools Council, this programme runs from March - October 2024. It will consist of monthly online activities and an online summer school, including a visit to the University of Leeds Medical School for a Surgical Careers Taster Day. Eligibility criteria apply.

- **Medical and Biomedical Engineering Webinar, University of Southampton, 18 March, 16.30pm**

Medical and biomedical engineers are the innovators, designers, and developers who use their knowledge and skills to create technologies for diagnosis, treatment, management, assistance, and care of sick or injured people. Sign up [here](#) to hear how engineering technologies are used in healthcare.
